Welcome to the 2023 edition of Let's Colour, the magazine that inspires and guides you on your journey to creating the home you love. It's been a challenging year, and we've all faced experiences that feel out of kilter with the modern world. Our homes continue to provide a sanctuary; and it's the perfect place for us to restore, renew and recalibrate; a space where we can be brave enough to take the first steps towards a bright future.

Heleen van Gent,
Creative Director,
AkzoNobel GLOBAL Aesthetic Centre

THE GLOBAL AESTHETIC CENTER

For more than 25 years, the Global Aesthetic Center in Amsterdam has been a hotbed of trend analysis, colour design and art direction. Led by Heleen van Gent, the creative team supports 80 markets around the world, working to ensure that every market can help consumers and customers choose colours with complete confidence.

To be sure that our new colour palettes are right for the future, we undertake rigorous research and trend-monitoring; gathering social, cultural and design insights from a selection of acclaimed international design experts. Our colour team then uses this information to help identify the Colour of the Year and to create four complementary and inspiring palettes around it.

ColourFutures™ is central to the Global Aesthetic Center's work. As well as allowing us to tell the story behind this year's colours and to keep our colour expertise at the cutting edge, it also enables us to create assets to help people at every stage of their decorating journey. Our videos, articles and inspirational images are designed to give people the confidence to transform their surroundings using the Colour of the Year and its complementary shades.

"THIS YEAR ITS ALL ABOUT FEELING THE MAGIC OF NATURE... AND BRINGING IT INTO OUR HOMES."

INTRODUCING DULUX
COLOUR OF THE YEAR 2023

WILD WONDER

To encapsulate the inspiration behind our Colour of the Year, we chose the name Wild Wonder™ – ‘Wild’ to conjure up the freedom of nature and ‘Wonder’ to convey the natural magic we see all around us. Wild Wonder™ is a positive, natural tone that, by connecting us with the natural world, can help us feel better in our homes.

TODDLERS TO TEENS BEDROOMS

Kids are fickle creatures that live in the here and now, their interests are constantly changing and they conveniently forget about cleaning up their creative mess. Let's give them the freedom to learn, live and play in rooms that grow with them, supporting them through their varying interests.

With Dulux EasyClean Plus, you can take that moment and enjoy the smile on your toddler's face while he eats that ice cream and merrily puts his hands on the wall next to him or marvel at how your teenager managed to fling mud that high up on the wall. Being able to simply wipe away the stress allows you to find the brighter side in even the messiest situations.

RAINBOW DREAMS

Make Your child's room a dream come true by painting one wall with a Rainbow. It's easy to draw and can be created by just using a chalk and a string. Unlike the colours that we see online, we suggest to tone them down to create a fairytale effect. Complete the effect with some clouds in shades of white.

THE WEEKEND PROJECTS

WITH A LICK OF PAINT, LITTLE IMAGINATION AND A WEEKEND AT YOUR DISPOSAL YOU CAN EITHER CONVERT A BORING LITTLE CORNER INTO SOMETHING COZIER OR JUST REFRESH YOUR SURROUNDINGS.

1 UNVEIL AN UNDER-THE-STAIRS PLAYROOM FOR YOUR KIDS

Under the stairs can be so much more than a cluttered storage space. Using bold colours and geometric shapes, we've completely transformed this cupboard into a snug hideaway for children, complete with a soft linen curtain that keeps it concealed when playtime is over for the day. The fun palette provides a cheery backdrop that's sure to encourage learning and creativity. Simply add shelving laden with wonderful books and comfy daybeds for lounging together, with festoon lighting and soft toys to create a nook they can call their own.

KEEP THINGS ON TRACK

Saturday morning
Start by clearing out the space. Use a Primer and a filler to fill any cracks or holes in the surfaces you're painting, then gently sand and clean before leaving to dry. Next, paint the wall with White on White.

Saturday afternoon
Mark up your shapes using our string-and-chalk technique, or you can also use a scale to draw straight lines, then mask off the first shape. Seal the inside edges of the tape. Fill in with your first colour.

Sunday morning
Remove the tape from the first shape, then unmask the next one and repeat with the second colour.

Sunday afternoon
Remove the tape from the second shape, then mask off the final one and repeat with the third colour. Allow to dry, then remove the tape and call the kids. It's playtime!

WHAT YOU'LL NEED

- Sandpaper and cleaning cloth
- Paint from colour palette selected
- Stirring stick
- Roller and tray
- Tape measure and pencil
- String and chalk

2 CREATE A COSY ZONE WITH COLOUR IN AN OPEN-PLAN ROOM

A statement feature wall is a perfect solution – not only does it add a shot of colour, but it also helps to subtly divide the space so that the different functions are clear. With a warm colour, such as Blush Pink, serving as a canvas, a feature wall in a deeper shade like Acai Berry will pop. The ideal place for the feature wall is a focal point, so try it behind a sofa or the wall that is visible the most.

WHAT YOU'LL NEED:

- Tape measure and pencil
- String and chalk
- Masking tape and scissors
- Paintbrush
- Paint from colour palette selected
- Stirring stick
- Roller and tray
- Extension pole

Products used:
Dulux Ambiance Pearl Glo for walls.
Dulux Woodcare Satinwood for all interior wood & metal surfaces

KEEP THINGS ON TRACK

Saturday Morning
Begin by ensuring the section of the wall you're about to paint is clean and dry. Then, use a tape measure to carefully mark where your feature wall will be positioned.

Saturday Afternoon
Demarcate that area using a chalked string. Mask along the line and then repeat for all the edges.

Saturday Evening
Paint over the tape with the darker colour within the demarcated area to create a crisp edge. Remember not to cross the masking line.

Sunday Morning
Use a roller to paint the rest of the colour block in a single coat of the darker colour. Leave to dry, and admire your results. Don't forget to attend your video calls with the new wall as the background now.

COLOUR TIPS

Heleen van Gent

“Create a statement with a colour like Plum Jam. It is a perfect background if your home décor is subtle and neutral. Make it even cozier by layering it up with abstract print metallic cushions. Now, make yourself comfortable, light some candles and enjoy your evening!”

OMBRE EFFECTS

There's no better way to bring a set of shelves to life than with statement colour blocking. All you need is three coordinating hues – a darker one for the centre shelf to draw the eye, such as Hay Harvest, a mid-tone for the shelves above and below it, such as Lis Crème, and a pale shade, such as Arizona White, for the outer shelves.
